VINTAGEVIEW®
MOVING WINE STORAGE FORWARD

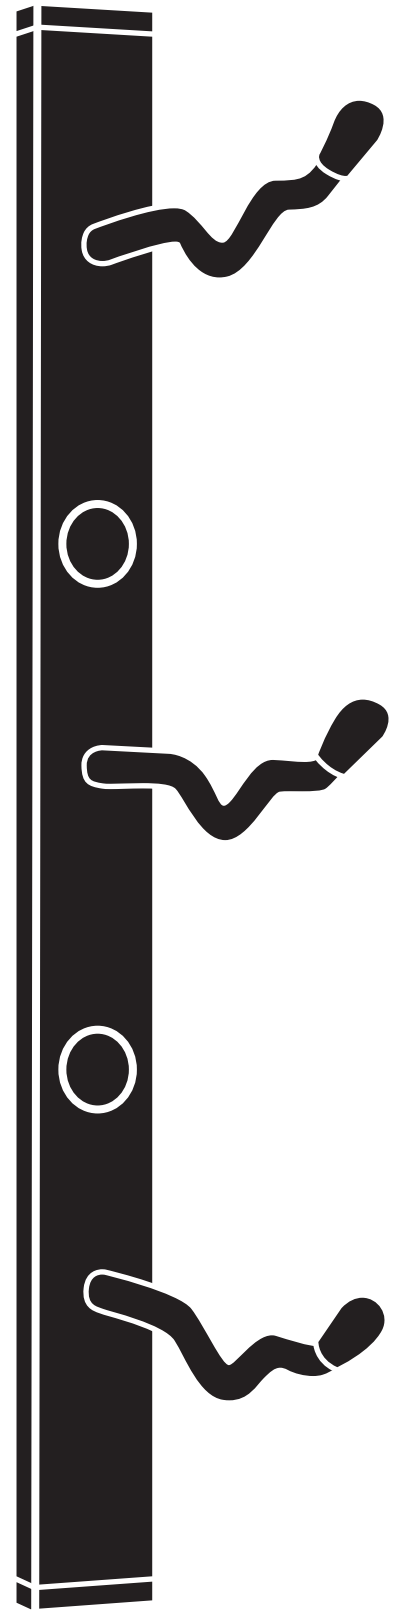

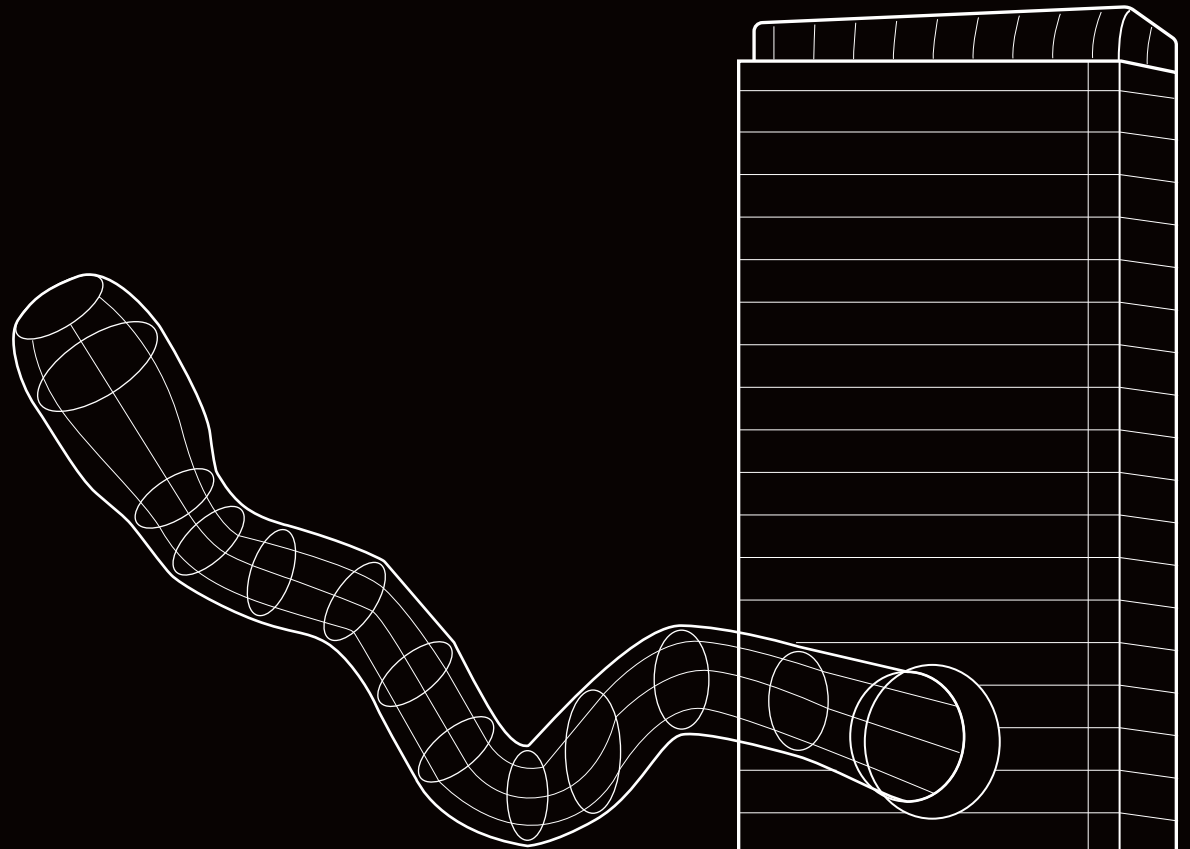

VINTAGEVIEW'S

NECK & BASE ADVANTAGE

5 reasons our original, patented design is still the **best** today

- 1** Perfect angle for wine aging
- 2** Specific impressions for neck and base offer more security
- 3** Offset rods provide the preferred designer look
- 4** 19-year track record of storing wine safely
- 5** Backed by a lifetime guarantee

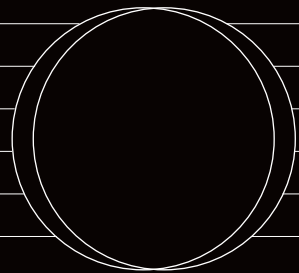

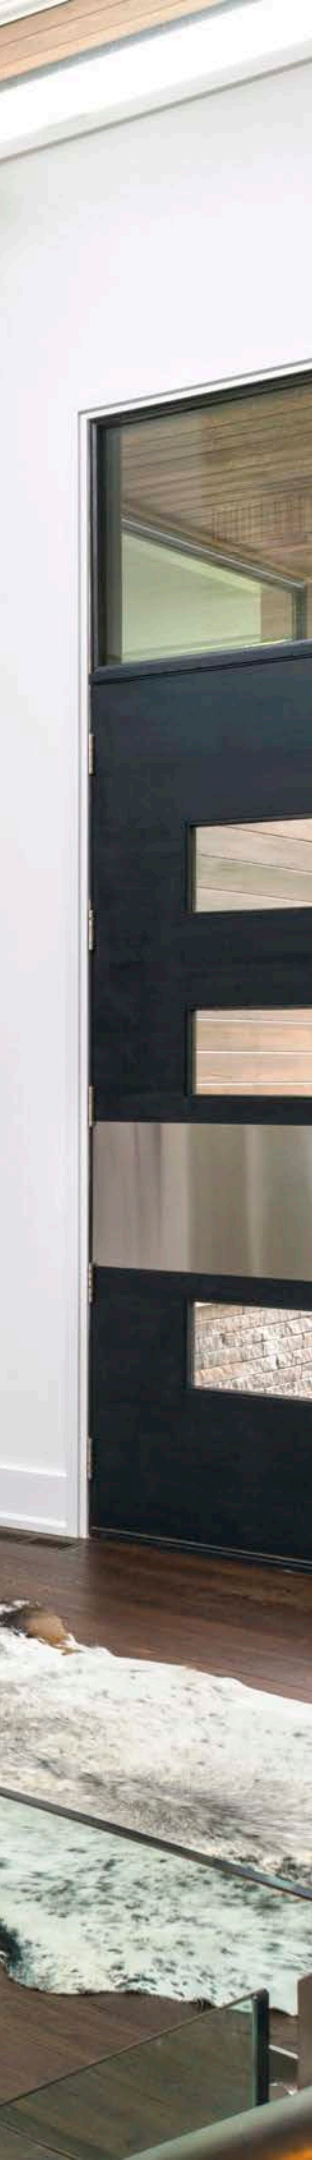

W Series

The best (and original) label forward rack.

The W Series started the mod wine rack movement in 2001 and maintains its design relevance today. Perfect for any size room — residential or commercial. Customizable to scale for wine collections of any size, starting at just a few bottles.

See-Through the Walls

Why stop at just one wine display? This Oakville, ON, residence showcases three unique floating wine walls that cleverly divide rooms.

Vino Series

The artistic, minimalist approach to bottle storage.

The Vino Series turned label-forward on its head in 2015, quickly becoming the rack sought by the world's best designers. Start with one bottle, scale to hundreds. Coupled with a first-of-its-kind floating frame system (next page!!!), this collection allows layouts to break from the linear to transform wine cellars into art. There's no other wine rack like it.

New Vegas

We couldn't have selected a better home to launch the all new Vino Series Post and Panel systems, further elevating the best wine peg system in the world. Perched high above The Strip, this multi-million dollar estate in the exclusive Acaya development served as the prestigious The New American Home 2020 showcase.

Evolution

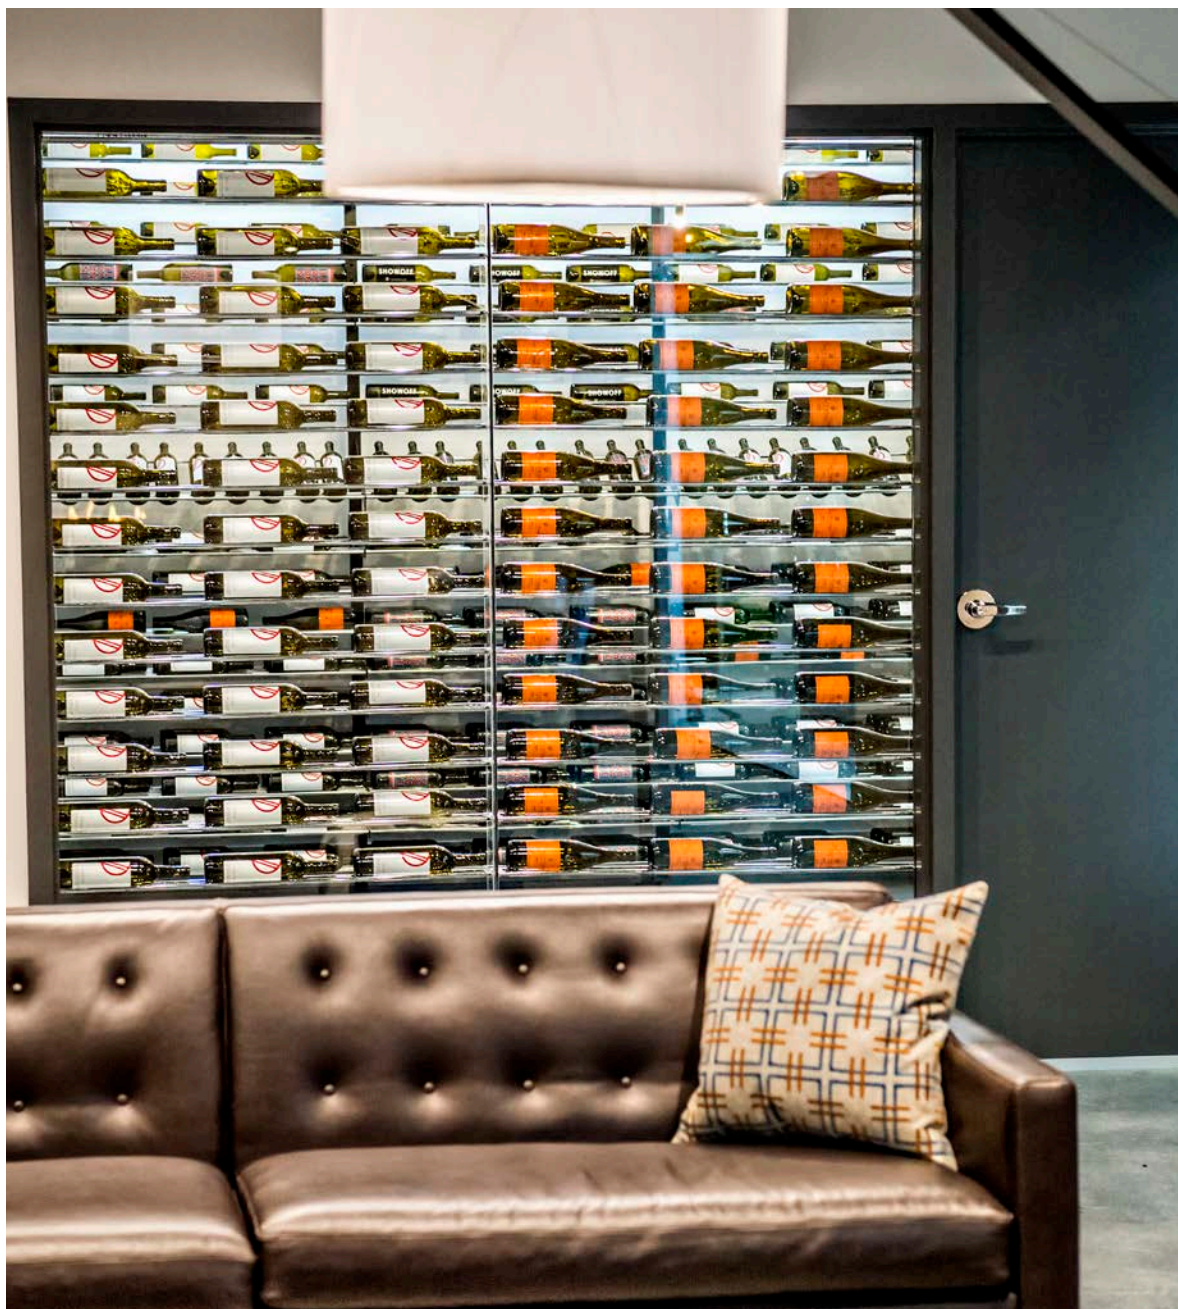

The designer tool bag expands with the versatile Evolution collection.

Featuring three unique systems of wine racking, Evolution allows myriad ways to display bottles in freestanding and wall-mounted fashion.

All Mod, All Day

Hard to imagine a better way to display wine against glass, allowing for a near transparent storage that subtly reveals two Wine Wall installations on our all new Post system. The first floats in front of a stark white wall, the second presses a display against glass. We call this room home. Literally.

Case & Crate

A Case Study

This chic line brings VintageView's renowned ingenuity to bulk wine storage.

It also ships same day so you can design well — and quickly.

Just call this the first Locker and Bin system that designers actually like.

Perfect on its own or with VintageView's other display racking collections.

Statement Wall

When creating our Design Center, we knew it had to be anchored by a statement feature. This Locker and Bin collection allows designers to dream about integrating elegant case storage into a “jewel box” display. Our W Series racks provide a Champagne accent.

Highlights

Case & Crate Bins & Lockers

Pinot Branding

In a crowded Pinot region, it's important for boutique wineries to stand out to tasting room crowds. Lange Winery in Dundee, OR, does just that by putting its world-class Pinots & Chardonnays on display, label out, in Bins and W Series column racking. Enjoy wine. Stare at bottles. Bring a case home. That's how a winery builds brand loyalty.

Satin Black

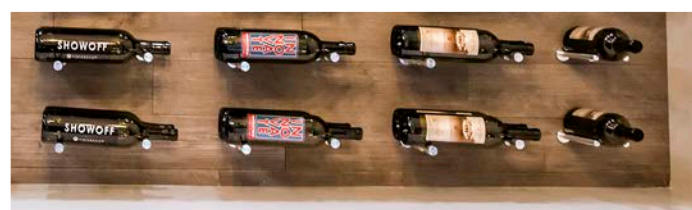

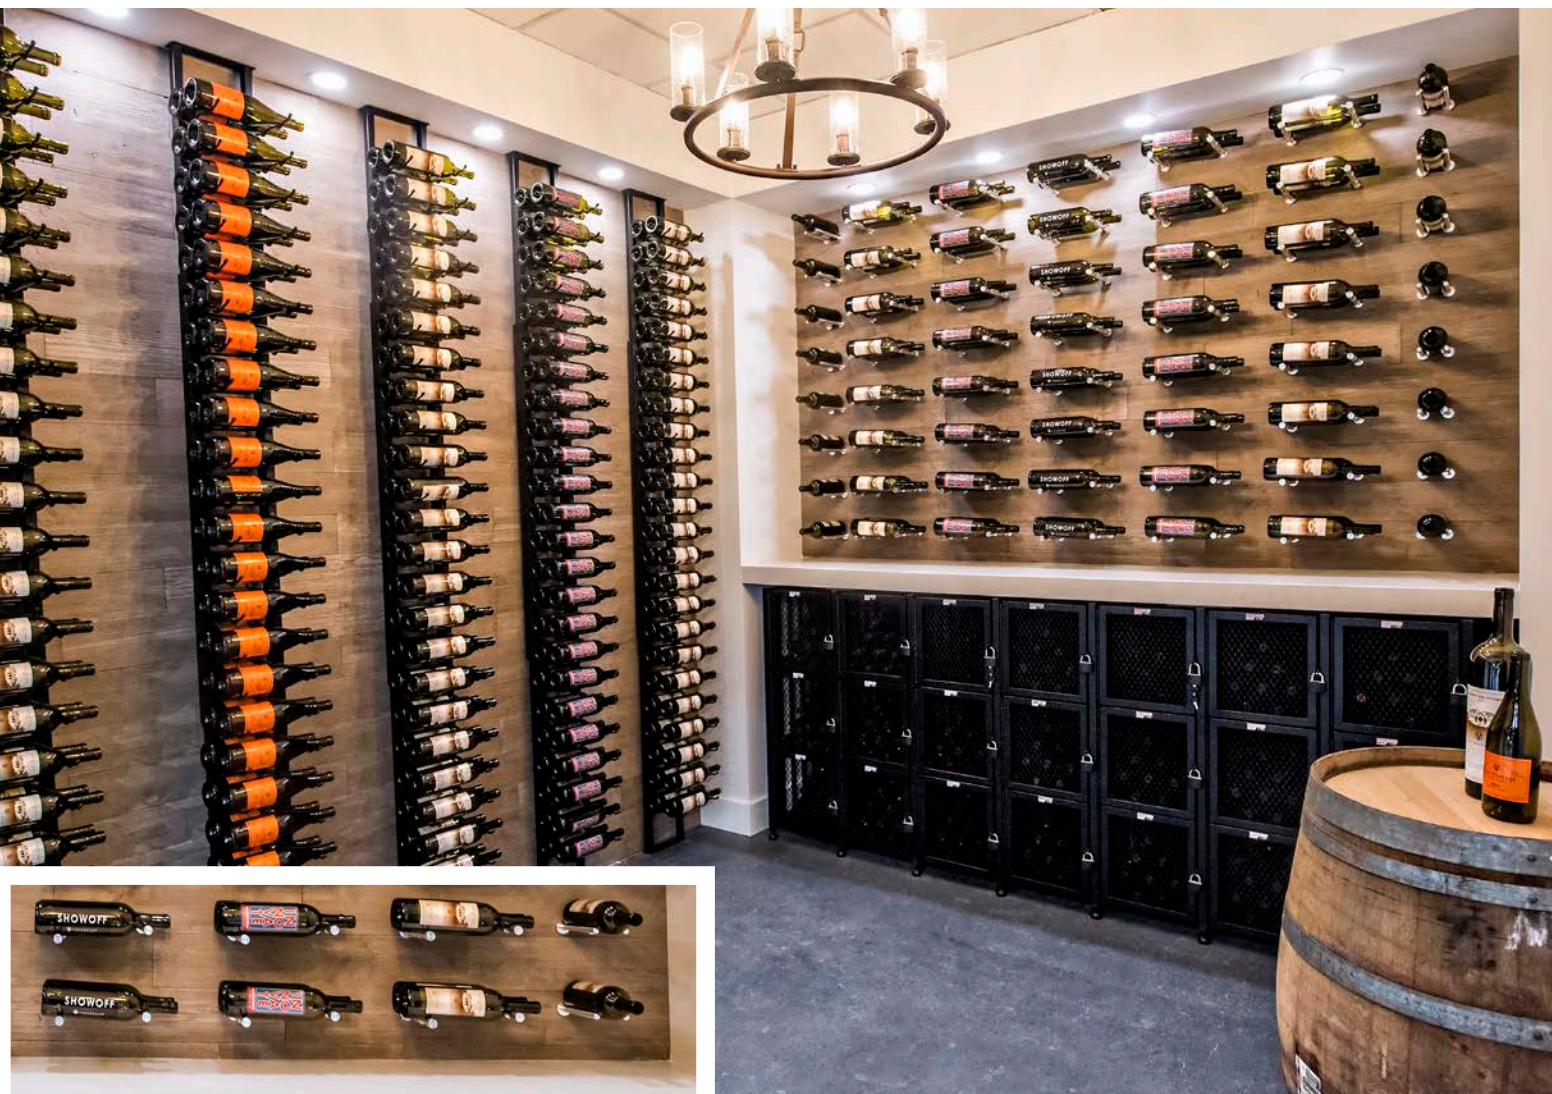

Did You Know?

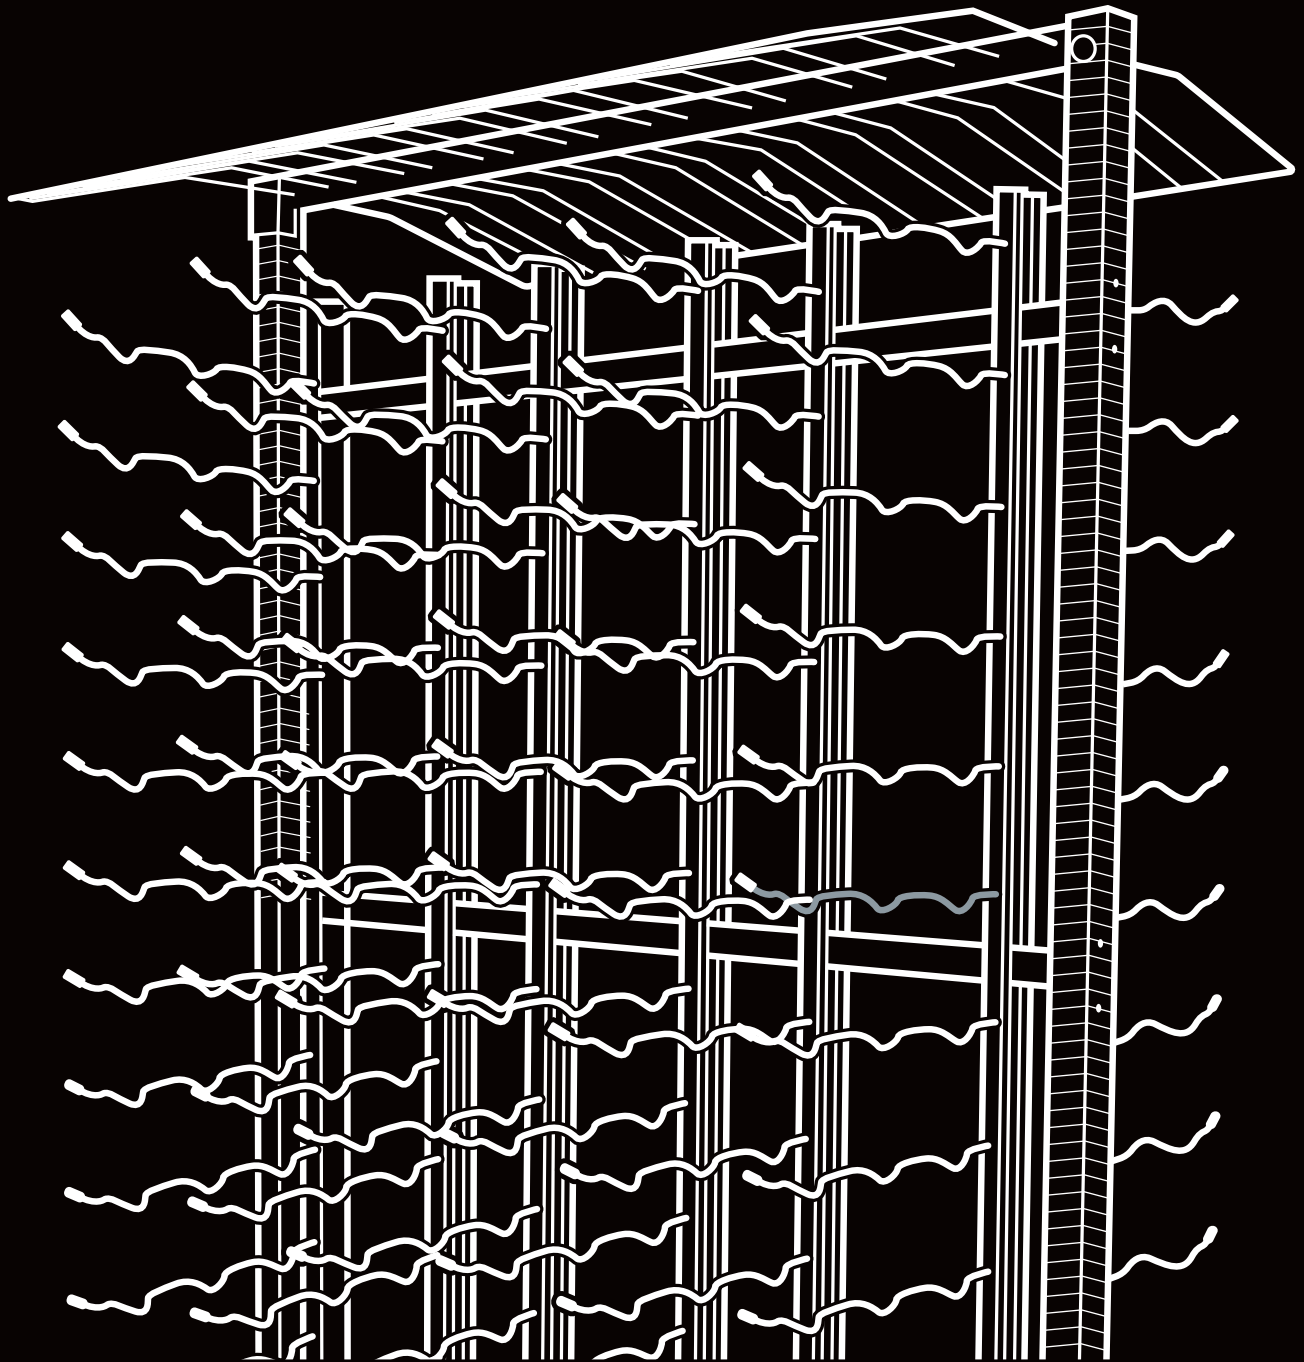

High-end restaurants often add wine lockers to either gift or rent to clients, ensuring they come back more often to open the bottles they store. Great way for wine pros and wine lovers to interact!

Hidden in Plain Sight

A row of lockers ramps up the bottle count while the Vino Pins do the heavy (design) lifting. No need to sacrifice form or function in this stellar wine cellar located inside the VintageView Design Center.

Island Display Racks

Boutique Redesign

Wine shops of all flavors are leaning on label-forward design to entice shoppers in every aisle. The Island Display Rack is the solution that balances retail practicality with a style that improves the customer experience. Win-win.

Design Aisle

This mega-store in Edmonton, AB, emphasizes aesthetics every bit as experience. The result being a store that packs in bottles while still maintaining a look befitting of an interior design studio.

Highlights

Resources

We create the world's best looking and most trusted metal wine racks.
Since they don't install themselves, we back our products
with industry-leading support.

Custom, 4 Ways

With the designer's touch, our standard wine racking systems configure to fit just about any custom wine cellar space. However, we recognize that some projects — due to room oddity or style request — call for something fabricated from scratch to meet unique needs.

We have you covered. Let's brainstorm. Custom options include:

1. Complete ground up metal fabrication

- Ladder-style support (pictured)
- Diamond Bin Cabinets
- Metal case storage

2. Custom Evolution Panels (acrylic)

- Depth: 1 to 12 bottles deep
- Height: Up to 120" tall
- Configuration: Mix bottle sizes, and more

3. We cut to fit:

- W Series Wine Racks (height)
- Evolution Wine Rods (width)

4. Color It

If it's on the color wheel, we can transform any of our metal products with beautiful, durable custom powder coating.

Design Services

Know what you want? Great! We'll make sure it fits in the space. Haven't a clue which racking system should go where? We're masters of design who understand what products will work best for your aesthetic, budget, and spatial needs. VintageView's design department offers:

Complimentary 2D Design

All we need is a few days, accurate measurements, and some direction of the project goals.

3D Design

For larger projects needing a more realistic showcase of the wine cellar, we produce 3D room renderings that can look every bit as crisp as a photo.

Resources

If your company has an in-house designer, we speak CAD and Revit, and we are happy to provide files to use on your systems.

Training & Product

There's no need to head into a client meeting without a full understanding of VintagView products and wine cellar building knowledge.

Cabernet & Credit CEU

We've flipped the classic Lunch and Learn into an engaging 90-minute program hosted at amazing restaurants throughout the country. Our AIA/IDCEC certified course covers **6 Steps to Designing a Modern Wine Cellar** and is served with wine and tasty snacks.

CEU Online

Take our AIA/IDCEC course on your own time through our partnership with AEC Daily. You'll need to provide the wine.

Webinars

From consultation tactics to product knowledge, we provide five unique online courses each quarter. Take them all!

Installation Resources

Our robust video and PDF library will take you through the nuances of installing VintagView with ease.

It's all about the FINISH

Luxe edition

We've elevated our Chrome offering by removing the plastic finishing pieces, rounding the rod tips and plating the mounting hole covers for a final product even more beautiful than before (didn't think that was possible!?!).

Available Feb. 1.

Five Flavors

With the addition of Gunmetal and Golden Bronze, VintageView now offers five unique finish offerings for our designer-focused Vino Series line. The versatility is unmatched in the industry.

Custom colors

We've streamlined the powder coating process, from quoting to fulfillment, meaning we can create a unique color to match the room you are designing.

Need a bronze gloss hammer finish? How about mock rock or gray zinc? If it's on the Cardinal Paint color wheel, we can customize the look of every single VintageView wine rack.

VintageView Product Showcases

Our Design Center is arguably the best place in the US to see a wide range of VintageView products in the context of residential and commercial design. However, we understand Denver, CO, is not a quick drive for everyone. To help, we have partnered with some of the best wine cellar builders and interior design specialists to feature our wine racks in their beautiful showrooms. From Scottsdale to South Florida, and Calgary to upstate New York, there's probably a VintageView showcase nearby.

Want to be a showcase? If you have a showroom and work in a related design/build business, we'd love to talk with you.

Can't find a showcase nearby? There's probably a tasty wine bar or restaurant with our systems on display. Or swing by our Design Center on your way from Denver International Airport to Vail.
